Metrics

Metric	Value
Total Logs	502
Errors	30
Warnings	15
Info	445

Insights

- Total scoped logs: 502.
- Top recurring error: RAW INPUT → service: [null], level: [null] (6 occurrences).
- Most impacted service: log-controller-service.

Service Breakdown

Service	Errors
log-controller-service	21
inventory-service	9

Errors by Service

Error Timeline

Recommendations

- Inspect recent log-controller-service deploys, dependencies, and retries if its error count keeps rising.
- Correlate the top error message with infrastructure changes and upstream service failures.
